

THE YORK TUBEROUS SCLEROSIS CLINIC

The clinic is held at The Department of Neurosciences at York District General Hospital, and is under the personal direction of Dr Pam Crawford, Consultant Neurologist. It is held twice a year in May and November and is strictly by appointment only.

The clinic offers advice in the following areas of TSC:

1. Assisting in particular areas of general management and in particular adult epilepsy.
2. Helping patients and their families get access to relevant specialist services as necessary via referral.

The clinic involves professionals Dr Pam Crawford, Consultant Neurologist, and Catherine Falconer, Genetic Counsellor/Clinic co-ordinator.

All enquiries and referrals should be made via the patient's GP or hospital doctor to:

Mrs Catherine Falconer
